Hi Patrick

I just wanted to thank you for an excellent result at the auction on Thursday night - I am delighted with the outcome.

It made all the difference to have someone on my side that actually knew what they were doing!

I also found your guidance in setting a price limit really helpful. You raised many issues that I wouldn't have otherwise considered. Your assessment of market value turned out to be spot on (unlike mine!) - without your help on this I would have been completely unprepared at the auction.

Please also pass on my thanks to your team who assisted in the background.

Kind regards
